

Task 4: Email Etiquette & Digital Communication

PART A – Professional Emails

Email 1: Request for Assignment Extension

Subject: Request for Extension on CSE0001 Digital Literacy
Assignment Due on 31st march ,2026

Dear Professor Kannan,

I hope this message reaches you in the best of your health and spirits. I am writing to request a small extension for the submission of the [Assignment Name] for the course, [CSE0001 Digital Literacy], which is due on 31st march ,2026

I have, over the past few days, been facing some difficulties due to health-related concerns, which have affected my ability to submit the assignment to the best of my capabilities. Despite this, I have already completed a substantial amount of work, i.e., approximately 60% of the assignment.

I would like to request you to grant me a small extension, i.e., until 3rd April , 2026. I am confident that with this extension, I shall be able to submit quality work to the best of my capabilities.

I understand that the extension request is subject to your discretion, and I am grateful for considering my request for a small extension.

Thank you for your time and consideration.

Sincerely Yours,

Dheer Jain

Registration number - 25BCE10072

Subject and code - CSE0001 Digital Literacy

Email 2: Internship Inquiry

Subject: Application for Summer Internship, Dheer Jain , VIT Bhopal University

Dear Mr.Sriram Sir,

I hope this email finds you well. My name is Dheer Jain, and I am a first-year student studying Computer Science engineering degree at VIT Bhopal University. I am writing to express my strong interest in the summer internship at Google Gsoc camp in the "Software Development team".

I discovered this internship through the company website and I am particularly interested in Google because of its innovative projects and reputation in the industry. This internship would be a great chance for me to apply what I've learned in school while gaining real-world experience.

At university, I have built skills in AI/ML Tools , building full stack web applications and much more and actively taken part in relevant projects and hackathons organised by the university. I am eager to help your team while learning from experienced professionals in the field.

I have attached my resume and cover letter for you to review. I would appreciate the chance to discuss how my background and enthusiasm fit the internship requirements. I am available for an interview at your convenience and can be reached at [email]

Thank you for considering my application. I look forward to the possibility of contributing to Google this summer.

Best regards,

Name- Dheer Jain

Major - Computer Science and Engineering (2025-29)

University - VIT Bhopal University
